

ZUORA

The screenshot displays the Workato interface during a successful job execution. On the left, a workflow diagram outlines the process:

- TRIGGER**: Step 1, "Trigger every 10000000000000000000000 months at 12:00:00 AM on day 1 of the month".
- ACTIONS**:
 - Step 2: "Download file contents from FTP/FIPS server File".
 - Step 3: "Parse JSON document".
 - Step 4: "Create product in Zuora".
 - Step 5: "STOP job".
- End**: Final state of the workflow.

On the right, a summary panel indicates the job's success:

- Status: **Successful**
- Job ID: j-AMfRLTW-H-Th9rPe
- Description: Scheduler by Workato: new recurring event: Scheduled time=2024-06-04T08:10:38.750244-07:00, Scheduled day=Tuesday, and Scheduled week=22
- Duration: 2871ms
- Tasks used: 3

SEARCH

The screenshot shows a WinSCP terminal window. The title bar at the top reads: `/Rishi/Zuora/output.json - u834518050.workato@eaiesb.com - Editor - WinSCP`. The window has standard Windows window controls (minimize, maximize, close) on the right. Below the title bar is a toolbar with various icons for file operations (copy, paste, delete, etc.) and settings (encoding, color, help). The main area of the terminal is dark gray and contains the following text:

```
d9f0ebaf30ee4400bb9a06b8f6d3c563RISHIPC-00000033SKU-00000034
```
